

“la Caixa” - Severo Ochoa International PhD Programme at the IFT

Selection results of the 2016 Call

The Institute for Theoretical Physics IFT UAM/CSIC has received 93 valid applications to the 2016 call of the “la Caixa” – Severo Ochoa International PhD Programme at the IFT, out of which 11 candidates have been shortlisted and 9 interviewed. In the final list, the two candidates finally awarded the position are:

Christian Copetti	Quantum gravity and strings
Javier Martín	Quantum gravity and strings

In case any of the candidates resigns, the position will be granted to one of the reserve candidates following the order of appearance in the list of reserves appended below.

Claudia García García	LHC Phenomenology
Aurora Melis	Lattice quantum field theory
Sergi Navarro-Albalat	Cosmology
Javier Ugarrio	Lattice quantum field theory
Alvaro Herráez	Quantum gravity and strings
Rudin Petrossian-Byrne	Quantum gravity and strings
