IFT-UAM/CSIC Miniworkshop on The String Theory Landscape

Madrid, 3rd and 4th May 2004

Time	Monday	Tuesday
9:30		G. Ross: *String "phenomenology"*
10:00		
10:30	M. Douglas: *Why we should map the landscape of vacua*	Coffee Break
11:00		I. Antoniadis: *Supersymmetry breaking in D-brane models*
11:30	Coffee Break	
12:00	D. Lüst: *Scattering of open strings from intersecting branes*	F. Quevedo: *Inflation and realistic D-brane models*
12:30		
13:00	Lunch Time	
15:00	J. Garriga: *Anthropic selection on the landscape of vacua*	Special Seminar: M. Douglas: *Distributions of flux vacua*
15:30		
16:00	Coffee Break	
16:30 ??	Discussion Session
